Art

An abstract artwork featuring a textured, brownish-grey background. The composition is dominated by several large, irregular splatters of a vibrant teal or turquoise color. These splatters are scattered across the frame, with a particularly large one in the lower center and another in the upper right. Interspersed among the teal are smaller, lighter-colored (off-white or pale yellow) splatters and marks. Some of these lighter marks form thin, wispy lines or loops, suggesting a fluid, gestural application of paint or ink. The overall effect is one of organic, spontaneous creation.

An abstract artwork featuring a textured, brownish-grey background. Scattered across the surface are various splatters and blotches of bright teal and white paint. A prominent white splatter is located near the center, with a dark teal shape partially overlapping it. To the right, there is a dark teal circular shape. The overall composition is organic and layered.

The sensory perception is the base of every creative activity.

What means inclusion

What means inclusion

Inclusion occurs when a **diversity** of people (e.g. of different ages, cultural backgrounds, genders) feel **valued** and **respected**, have access to **opportunities** and **resources**, and can **contribute their perspectives** and **talents** to **improve** an organization or society.

What means awareness

What means awareness

Awareness is the ability to directly know and perceive, to feel, or to be cognizant of something that is happening. More broadly, it is the state of being conscious of something.

And it is the base of living together – being conscious about the differences of different people.
